

## MOVEABLE OUTDOOR MURALS INSTALLATION SHEET

The Mural Shop's Printed Moveable Outdoor Murals are made in Australia using the latest flat and textured print technology for fast and long-lasting Outdoor Garden Wall Art, Pool Feature Walls or Kitchen Window Fence Murals delivered to your door for easy DIY Installation. If you need any customization please use our online system or contact us at [orders@themuralshop.online](mailto:orders@themuralshop.online)

### SPECIFICATIONS

- Art is flat printed onto 2mm thick Galvanized Treadplate Aluminium made By Hardies
- The metal sheeting weighs 6.6kg per M2
- Multiply your height x width to get the total Meters 2 and then this sum x 6.6 to gauge its weight
- Buy enough hanging mechanisms for this total weight
- Sheet metal comes in set sizes which we cut down to suit your needs using a table saw. The finish is then smoothed off.

### DIY INSTALLATION

- 1) your mural comes with a 6mm screw hole in each corner
- 2) Need more holes? Let us know in your artwork note section
- 3) With a strong helper, position the mural against your wall and use a level to ensure your mural will be straight.
- 4) Pencil a marker through the holes to exactly see where your nail should go.
- 5) Drill holes through each marker
- 6) Again, hold the Mural in place over the top left marker and affix it with your preferred screw or nail and then, do the other side, followed by the remaining holes
- 7) To avoid the mural being blown and/or damaged by winds, securely affix every corner and/or centre hole

*Disclaimer:* The Mural Shop takes no responsibility for where you hang or how you hang your Moveable Outdoor Mural.
